The second item, "Edged Bound Rectangular Residential Carpets) were used as a floor for setting up the PLAYPANEL DIVIDERS.

The total paid for all the items listed on this inventory was \$22,438.00.

TRAILER TOWING REQUIREMENTS, 16 FOOT

Vehicle

PCI recommends a vehicle with at least a ½ ton chassis to pull a 16-foot fully loaded trailer. (Empty trailers can be pulled with compact truck or sport utility).

Electrical

Our trailers use a standard Bargman/Pollak 7-Way trailer lighting connector. This connects to the one that comes from the factory on any GM/Ford/Dodge light truck with a trailer-towing package. If your vehicle does not already have this, any aftermarket RV dealer will know exactly what you need.

Brakes

Trailers over 3,000lb require brakes. Electric trailer brakes require a trailer brake controller, which plugs into the vehicle wiring under the dash. We prefer Tekonsha models (Voyager, Sentinel, Envoy, Prodigy) because their software gives much smoother action than some others.

Hitch

A 2"x2" receiver rated for 7,500 lb gross/750 lb tongue weight is required on trailers that are 18' long or less. Draw-Tite and Reese are the two national brands that are best known; PCI normally uses Draw-Tite. The top of the 2"x2" hitch receiver should be between 11 ½" to 19" from the ground. For any other height contact Portable Church and we will advise.

Mirrors

7' wide trailers need no special mirrors when towed by a full size van, pickup, or sport utility.

8' wide trailers need either the optional 7x10 dual swing out recreation mirrors or aftermarket trailering mirrors for clear viewing.

Licensing

Your bill of sale acts as a temporary registration. You will need to get permanent plates to comply with your state's regulations. Some states charge sales tax on trailers purchased by churches; please check with your local taxing authorities to see if you are exempt. Please note: trailer sales, client pick-ups and deliveries within the state of Michigan are subject to sales tax.

The following sheet lists the recommended trailer towing requirements.
